CEMENT PLUGS

Freudenberg Flow Technologies is an industry leading manufacturer and provider of cement plugs to the global drilling and well completions sector. We offer our plugs in a variety of elastomer materials designed for all wellbore conditions including high pressure/ high temperature or chemically aggressive environments.

Our elastomer materials include:

- natural rubber
- nitrile compounds (NBR)
- HNBR
- FKM

All materials can be combined with easy drill-able phenolic cores or engineered to incorporate aluminum, wood or other specialty materials. Standard, in-stock sizes range from 2 3/8" to 13 3/8".
